

## Prismatite LED Made in USA Certification

**Prismatite 7200 fixture:** The Prismatite LED commercial light fixture is designed for ceiling and wall mounting where heavy environmental conditions exist. The fixture is rated for wet locations and can be water pressure washed with most commercial washers. It is UL listed and contains only UL listed or recognized components.

### **Statement of Origin:**

The light fixture components are supplied by Holophane and manufactured in Indiana, USA. The light fixture is completed by Go Green Solutions in North Hollywood, California, USA.

The lighting tube components are manufactured from various suppliers in Southern California and final assembled in North Hollywood, CA, USA. The only exception is the power inverter transformer manufactured by Würth Midcom electronics which is manufactured at their plant in China.

### **Part Numbers:** Go Green Prismatite LED Transit Fixtures

*The fixtures can be supplied in one of two ways:*

1. **Option 1 #7200412 JP1LB 28w5k**  
(tunnel mount @45 degrees) (2,142 lumens, 5,000 kelvin)  
Fixture with (2) T12D48-14wND22 Led tubes
